If you using Microsoft Windows and Interenet Explorer and are unable to see a camera image in Internet Explorer when trying to view the Littleham & Landcross Community Web Site Bird Cams, you may need to carry out the following procedure:

1) Tools --> Internet Options --> Advance Tab

Look for the option, "Allow software to run or install even if the signature is invalid" & Check it. then restart the IE & login, & now windows will ask you " do you want to install ActiveX... please select to install it & login again.... & enjoy your camera view.

2) Tools --> Internet Options --> Security Tab

elect a	zone to	view or chan	ge securi	ty settings.
